**LITROCK**<sup>TM</sup>

ADD THE BEAUTY OF NATURAL STONES TO YOUR WALLS

**BF**  
**BHARAT**  
**FLOORS**

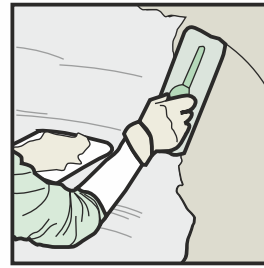

LITROCK™ wall cladding is a decorative wall covering that gives your interior or exterior walls an attractive stone-finish look, while adding a layer of protection to the walls.

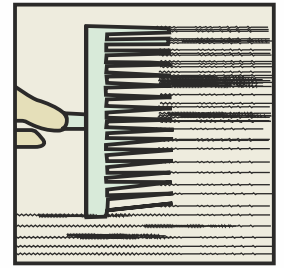

LITROCK™ is made from cement. It is much lighter than natural stone and, both, more economical and easy to install in your home, office, factory or commercial complex. It comes in different textures/finishes, sizes and colours, and the stone-finish look adds a rustic touch to your walls.

LITROCK™ wall cladding is strong and durable, and requires little maintenance over the years. Installation is easy as it does not require any structural changes to the existing walls.

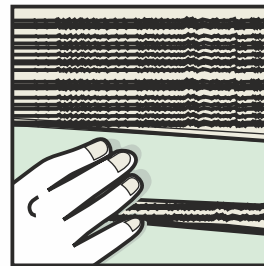

## Simple Installation Process

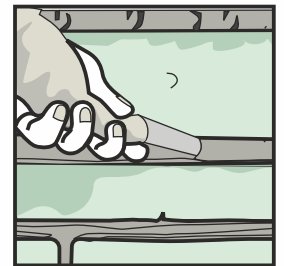

**Step 1**  
Apply base mortar to wall and to back of each stone.

**Step 2**  
Roughen the surface of the mortar for adhesion.

**Step 3**  
Press each tile firmly into the mortar bed.

**Step 4**  
Fill gaps and joints with grout using a grout bag.

# Different Sizes and Designs of Tiles

## LEDGESTONE DESIGN

Buff Colour

Marengo Grey Colour

Charcoal Colour

Agra Red Colour

## CASTLE STONE DESIGN

Agra Red Colour

Mountain Grey

Custom colours can be created on request for projects over 500 m<sup>2</sup>. Please give us a picture or sample of your favorite rock and we shall be glad to oblige!

The above colours are representative. All products are composed of natural materials which may exhibit shade variations and colour differences.

## Advantages of Litrock™

### Application

LITROCK™ is suitable for both interior and exterior walls, adding a natural-stone finish to the wall while providing additional protection.

### Lightweight

LITROCK™ wall cladding is lightweight and, if installed properly, stays on the wall as a veneer without falling off.

### Range

LITROCK™ comes in various texture/finishes, sizes and colours to suit many architectural designs and building facades, without compromising on aesthetics of the building.

### Durability

LITROCK™ is made from cement and other composites. It offers the same strength and durability of similar concrete products.

### Economical

LITROCK™ is less expensive than natural stone, easier to install and requires little maintenance over the years.
